

C1187

3.8mil Matte Wht PE | hp1 | 50#

This polyolefin-based, clay-coated film is designed to be compatible with most print methods.

This film provides superior performance where resistance to tear, grease, moisture, and temperature fluctuation is needed. It will die cut and fold easily. It is also compatible with hot stamping and embossing. Outdoor durability will last up to 18 months depending on the climate and exposure. When using for hand held applications, it is recommended to remove the liner from the label in order to reduce pickers curl.

caliper (+/- 10%) 3.8mil

an aggressive hot-melt adhesive
for difficult to label surfaces

Hp1 is designed to hold strong in severe environments- with exposure to petroleum based oils, grease, organic solvents, and high humidity. Hp1 has very high peel and shear properties for use on durable applications.
